

MARSHMALLOW SHOOTER

In ancient times, large **catapults** launched heavy stones to destroy enemy castles. Launching marshmallows is a little less dangerous.

What you need:

- masking tape
- plastic spoon
- wooden clothespin
- marshmallows

What you do:

- 1 Tape a plastic spoon to one of the clothespin handles. The scoop end of the spoon should be at the opposite end of the clip end of the clothespin.

catapult—a device similar to a slingshot used to launch objects
